Atmospheric Candlelight

6 X LED TEALIGHTS • RECHARGEABLE

Realistic, flickering flame • Remote Control • Timer (2-4-6-8 hours)

Dimmer • Including charging platform • 40+ burning hours • Safe & Durable

Bring candle-cover to life!

Candle-cover's rechargeable tea lights are a sustainable choice for both the environment and your wallet. Easily charge the candles in the included charging station, after which they last up to 40 hours.

Remote Control

With the included remote control, you can turn the tea lights on or off at the touch of a button. You can also easily adjust the light intensity with the dimming function.

A handy feature is the timer, which allows the tea lights to burn daily at a set time for a specified duration.

Safe and rechargeable

The advantage of LED candles is that they are much safer than regular tea lights. Without fire, there is no fire hazard, making them ideal for households with children and/or pets. Additionally, no harmful fumes are released.

A realistic flickering flame

Although they aren't real tea lights, they provide the same atmospheric lighting. The flickering flame of the LED tea lights mimics the effect of realistic flames, making them almost indistinguishable from the real thing.
